E313: Student identification code

DESCRIPTION
A code which uniquely identifies the student within the Provider and remains constant from year to year

<table>
<thead>
<tr>
<th>FORMAT:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Data Type*:</td>
<td>String</td>
</tr>
<tr>
<td>Width:</td>
<td>10</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

This code is assigned by the Provider.

A student may make a number of separate course enrolments at a Provider in the one year or over a number of years. Within the one Provider, the identification code for the student must be constant across courses and over time. Where a student returns to a Provider to resume a course or to undertake a new course, the identification code must be the same as that used at the time of the student’s first enrolment at the Provider.

Where a Provider is amalgamated with another Provider this may lead to the need for the identification code for some students to be changed. In such circumstances, the department should be consulted so that any arrangements which may be required to ensure continuity of the identification code can be agreed on.

For more information about terms used in these guidelines, see the Glossary.

</tr>
<tr>
<td>43</td>
<td>Recent secondary education undertaken (whether undertaken at school, VET or another Australian or overseas provider) – only other criteria, ATAR not considered</td>
</tr>
</tbody>
</table>

**ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS**

For the purposes of determining whether a commencing student left school recently (for codes ‘41’, ‘42’ and ‘43’), include students who left secondary school at any time in the two calendar years preceding the year in which they applied for their course. For example, a student who commenced higher education in 2017 is to be included as a recent school leaver if they left secondary school in 2016, 2015 or 2014. This timeframe is used because applicants who are offered a place on finishing Year 12 but defer their commencement for up to two years are considered to be recent school leavers.

Code ‘41’ is to be used where the student/applicant recently left secondary education and was admitted/selected solely on the basis of ATAR, regardless of whether this includes the consideration of adjustment factors such as equity or subject bonus points.

Code ‘42’ is to be used where the student/applicant recently left secondary education and was admitted/selected on the basis of ATAR and some other criteria such as a portfolio, audition, extra test, early offer conditional on minimum ATAR, etc.

Code ‘43’ is to be used where the student/applicant recently left secondary education and ATAR was not a factor in the admission/selection and only other criteria was considered. For example, special consideration, portfolio alone, audition alone, school recommendation scheme with no minimum ATAR requirement.
Code ‘40’ is to be used for students/applicants who did not recently leave secondary education and were not admitted on the basis of prior VET or higher education study. This may include students admitted on the basis of professional qualifications, mature age provisions or other work and like experience.

Providers can report up to two codes if needed.

Refer to Glossary for the definition of Commencing Students

Applications and Offers only
HEPs / TACs - data is required in all submissions.

For TACs, refer to TAC Data Elements Map for more information.

For the purpose of determining whether an applicant recently left school, include applicants who left school at any time in the two calendar years preceding the year in which they applied for their course. ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

Higher Education only
If a student is attending an off-shore campus as an internal student at that campus, they are to be coded “1”, not “2”.

For the aggregated award completions, the code to be assigned for mode of attendance relates to the final year of attendance.

Applications and Offers only
The codes ‘4’, ‘5’ and ‘7’ are not applicable to this collection.

When no information is available on an applicant’s mode of attendance preference but:
- the course itself only provides internal attendance options, report as “1”
- the course itself only provides external attendance options, report as “2”
- the course provides both internal and external attendance options do not report a value

HEPs / TACs - data for both Course Offers and Course Preferences are discretionary optional in all submissions.

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

The attendance type for OUA and non-HDR higher education students is calculated from the students’ reported load and is not reported under this element.

**Higher Education only**
For Higher Degree Research (HDR) students, classification of type of attendance is based on the student’s own assessment not the student load.

For aggregated award completions, the code to be assigned for types of attendance relates to the students final year of study activity.

The department calculates attendance type for OUA and non-HDR higher education students is calculated from using the students’ reported load and is not reported under this element.

**VET only**
VET providers are to report the code that best reflects the student’s attendance while undertaking the course.

For more information about terms used in these guidelines, see the Glossary.

**INPUT PACKETS:**

- Aggregated awards
- Course admission (HE)
- Course admission (VET)

E333: Academic organisational unit code

DESCRIPTION
A code assigned by the Higher Education Provider which uniquely identifies the academic organisational unit providing a unit of study or part of a unit of study.

<table>
<thead>
<tr>
<th>FORMAT:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Data Type</strong>*: String</td>

<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Any data</td>
<td>Code assigned by the Provider</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
The code assigned by the Higher Education Provider to each academic organisational unit must uniquely identify it within the Higher Education Provider and should remain unchanged over the years.

For more information about terms used in these guidelines, see the Glossary.

INPUT PACKETS:
- Unit enrolment (HE)

E337: Work experience in industry code

DESCRIPTION
A code which identifies whether a unit of study consists wholly of work experience in industry

<table>
<thead>
<tr>
<th>FORMAT:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Data Type*:</td>
<td>String</td>
</tr>
<tr>
<td>Width:</td>
<td>1</td>

<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Student is undertaking work experience in industry where learning and performance is not directed by the Provider, but support is received from the Provider</td>
</tr>
<tr>
<td>2</td>
<td>Student is undertaking work experience in industry where learning and performance is not directed by, and support is not received from, the Provider</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

The Work Experience in Industry code indicates a domestic student’s student contribution or tuition fee status:

- Students undertaking a unit of study coded as “1” are considered to be undertaking a unit of study consisting wholly of work experience in industry and the Provider may charge a student contribution amount or tuition fee.
- Students undertaking a unit of study coded as “2” are considered to be undertaking a unit of study consisting wholly of work experience in industry and the unit of study is contribution and tuition fee exempt.

Overseas students must be charged the overseas student fee for the unit even if the element is coded as “1” or “2” on the unit of study.

A Work Experience in Industry unit of study for which no credit is given (and therefore has no EFTSL value), is not to be reported to the department.

For more information about terms used in these guidelines, see the Glossary.

E350: Course of study load

DESCRIPTION
The aggregated EFTSL value for a course of study, summed across all units of study which meet the academic requirements for the course of study.

FORMAT:

<table>
<thead>
<tr>
<th>Data Type*</th>
<th>Decimal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width</td>
<td>2(1)</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
The value is to represent the aggregated EFTSL for all years of the course of study, assuming that:
- the course of study is undertaken by a full-time student; and
- the student undertakes a standard program of studies.

If there are multiple entry points to the course of study, the value reported is to reflect entry at the lowest possible point (i.e. without any exemptions being granted).

Where a student is undertaking a course of study for which another course of study was a pre-requisite, then the EFTSL for the first course of study should not be included as part of the course of study load.

Higher Education only
See the glossary definition of course of study load for higher education providers for information on reporting Course of study load.

VET only
See the glossary definition of course of study load for VET providers for information on reporting Course of study load.

For more information about terms used in these guidelines, see the Glossary.

<tr>
<th>FORMAT:</th>
<th>Data Type*: String</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>12</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
The code assigned by the Provider to each unit of study must uniquely identify it within the Provider.

Where, for internal administration purposes, a Provider uses more than one code for a single unit of study, only one of those units of study codes should be reported.

Please refer to the Glossary for further information about terminology used in this document.

For more information about terms used in these guidelines, see the Glossary.

</tr>
<tr>
<td>5</td>
<td>Recognition of prior learning (VET only)</td>
</tr>
<tr>
<td>6</td>
<td>Withdrew due to medical reasons</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

If the student cites medical issues as the reason for their withdrawal from the unit of study, report ‘6’. This is regardless of the type, nature or severity of the issue reported by the student and irrespective of whether the student has or hasn’t supplied the Provider with evidence of their medical circumstances.

All other withdrawals, including withdrawals before the census date, should be coded as ‘1’. Providers that do not collect reasons for withdrawal from a unit of study should code all withdrawals as ‘1’.

Higher Education Providers
Code ‘5’ is not applicable.

VET Providers
Refer to the Reporting RPL guide and the Glossary definition of Recognition of prior learning for further details.

VET students that do not complete the unit of study as the result of a tuition assurance transfer should be coded as ‘1’.

For more information about terms used in these guidelines, see the Glossary.

</tr>
<tr>
<td>010000 to 129999</td>
<td>Field of education code</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
Combined courses must be assigned a substantive field of education (i.e. spaces or all zeros are not valid).

Report six zeroes for courses other than combined courses, even though some single-award courses may have dual strands.

Element 461 (Field of education code) is to be used to indicate the primary field of education for the course and will be the element used in tables where continuity of statistical reporting is essential.

Applications and Offers only
The substantive field assigned by Higher Education Providers is to be provided to TACs.

Course Offers:
HEPs / TACs - data is required.

Course Preferences:
HEPs - data is required.
TACs - data is required in detailed submissions but discretionary in preliminary submissions.

E463: Specialisation code

DESCRIPTION
A code which identifies a specialisation within a course for which the academic requirements have or will be completed by a student or a group of students.

FORMAT:

<table>
<thead>
<tr>
<th>Data Type*:*</th>
<th>String</th>
</tr>
</thead>
<tbody>
<tr>

<thead>
<tr>
<th>VALUE</th>
<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>010000 to 129999</td>
<td>Specialisation code</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

The code to be assigned to a specialisation is to be selected from the field of education classification.

Up to three specialisation codes may be reported for a student’s course.

Refer to Appendix E – Field of Education Classification.

The specialisation code would normally be different to the code assigned to indicate the field of education for a course, because the specialisation code will reflect the majors undertaken by a student.

For more information about terms used in these guidelines, see the Glossary.

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

This code must reflect the Australian postcode where units of study are delivered and must not be for the postal address.

Higher Education
If the unit of study is taken externally, the postcode to be reported is that of the location of the Provider from where the course is presented.

If the load for an individual student in a single unit is spread across more than one delivery location then the postcode to be reported is that of the location of the Provider from where the course is administered.

Refer to [Appendix B – Australian postcodes](#).

E488: Commonwealth Higher Education Student Support Number (CHESSN)

DESCRIPTION
A code, allocated by the department, which uniquely identifies the student and remains constant from year to year.

<table>
<thead>
<tr>
<th>FORMAT:</th>
<th>Data Type*: String</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>10</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
A CHESSN must be reported if the student is Commonwealth Assisted.

A student may make a number of separate course enrolments at a Provider in the one year or over a number of years, and the CHESSN must be constant across courses and over time.

Where a student returns to a Provider to resume a course or to undertake a new course, the CHESSN must be the same as that used at the time of the student’s first enrolment at a Provider after 31 December 2004.

The CHESSN will only be used to allow eligibility to Commonwealth assistance to be facilitated and monitored.

Applications and Offers only
HEPs / TACs – data is required in all submissions.
For TACs, refer to TAC Data Elements Map for more information.
It is an expectation that a CHESSN will be reported for every applicant.

For more information about terms used in these guidelines, see the Glossary.

</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
This field must include the suburb or town name and should be meaningful in determining the location of the Campus.

Providers must report a unique Element 525 Campus suburb.

Providers with more than one campus in a given suburb or town can add further information after the suburb or town name so the campus is uniquely identified.
For example, two campuses in Queanbeyan could be reported “Queanbeyan riverside” and “Queanbeyan upper”.

Specific campus names which do not indicate campus location (e.g. St Francis of Assisi campus) should only be reported after the actual suburb or town name.

Campus location for Distance Education
Distance education courses are those courses offered via distance education, online learning or correspondence. These courses may require compulsory attendance at classes during certain blocks of time. In these cases the Campus Location can be coded as “Distance Education”.

<th>FORMAT:</th>
<th>Data Type*: Decimal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>8(2)</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
If a student has no HELP loan for a unit of study then the value for Element 558 (HELP Debt) must be "0". This includes exempt and overseas students.

If a student has a HELP loan for the unit of study then the value for Element 558 (HELP Debt) must equal Element 384 (Total Amount Charged) minus Element 381 (Amount Paid Upfront).

For FEE-HELP undergraduate courses and VET courses this must exclude the loan fee which is reported separately in Element 529 (Loan fee).

Calculating the HECS-HELP loan for a unit of study prior to 1 January 2017
The HECS-HELP discount was discontinued from 1 January 2017. For information on how to calculate Element 558 for a pre-2017 Commonwealth supported student please refer to the glossary - Calculating pre-2017 HECS-HELP debts.

<table>
<thead>
<tr>
<th>VALUE</th>
<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>0001 to 999</td>
<td>Australian Postcode</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

Refer to Appendix B – Australian Postcodes

Higher Education only
This code must reflect the Australian postcode of the campus of the Provider where the course is being offered.

Applications and Offers only
This code must reflect the Australian postcode of the campus of the Higher Education provider where the applicant would be primarily undertaking the course of study. Where possible, the postcode should reflect the location of the campus rather than the postal address. If course is taken externally or location is not specified, then the postcode to be reported is that of the campus of the institution from where the course is administered.

HEPs / TACs – reporting is optional for Course Offers and Course Preferences

For TACs, refer to TAC Data Elements Map for more information.

For more information about terms used in these guidelines, see the Glossary.

<th>FORMAT:</th>
<th>Data Type*</th>
<th>Decimal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>4(3)</td>
<td></td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
Credit used refers to credit/RPL allocated or applied to record units as completed against the course’s total requirements or to reduce the overall requirements for completing the course.

A separate code is to be reported for each crediting/RPL incident, each with a linked value indicating the basis for the credit (E561) and the source Provider (E566). Values for E560 must not be aggregated unless the credit has the same E561 and E566 and has not been previously reported.

VET only
Reporting of data for this element is optional.

For more information about terms used in these guidelines, see the Glossary.

<th>MEANING</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>a stand-alone arrangement</td>
</tr>
<tr>
<td>02</td>
<td>a partnership arrangement</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

A stand-alone arrangement: The course, curriculum, teaching and the provision of learning support and infrastructure is the sole responsibility of the Australian institution.

Partnership arrangement: an arrangement in which the responsibility for the course curriculum, teaching, and learning support and infrastructure is shared with other entities, such as through partnerships with other institutions or entities, sub-contracting of services, or franchising. The Australian Provider has responsibility for academic oversight of the arrangement.

Where a course is delivered through more than one type of operation at a campus the principal arrangement is reported.

Only report a type of operation for a course on campus that is offered fully or partially offshore. See element 571.

</tr>
<tr>
<td>03</td>
<td>External - with no face-to-face component</td>
</tr>
<tr>
<td>04</td>
<td>Multi-modal</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

Internal mode of delivery: course delivery is principally face to face, requiring regular attendance at a Provider or follows an agreed schedule for the purposes of supervision.

External mode of delivery – with face-to-face component: courses offered via distance education, online learning or correspondence, with compulsory attendance at classes during certain blocks of time.

External mode of delivery – with no face-to-face component: courses offered via distance education, online learning or correspondence, with no compulsory face-to-face component.

Multi modal delivery: delivery is organised comparatively equally between internal and external modes of delivery.

Where a course is delivered in more than one mode at a campus the main mode of delivery is reported.

Only report a mode of deliver for a course on campus that is offered fully or partially offshore. Courses that are offered from within Australia through distance education are not considered to be offshore courses.

*Data type definitions and formats are detailed in the glossary

ALLOWABLE VALUES:

<table>
<thead>
<tr>
<th>VALUE</th>
<th>MEANING</th>
</tr>
</thead>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

The length of the course (in years) based on the standard delivery structure for the course of study, coded as whole numbers and/or fractions of academic years.

For example, a standard course duration of 2 ½ years is to be coded as “2.5”. A course with a standard course duration of 3 years is coded as “3”.

The Standard Course Duration is the normal duration of the course for a full-time student. Under traditional delivery arrangements, a general bachelor degree of 3 years full time would be coded as “3” in the Standard Course Duration and “3” for Course of Study Load (E350).

For institutions that offer fast track study as the standard delivery, the standard course duration reflects the standard time for a full-time student to complete the course. For example, some Providers deliver general bachelor degrees of 3 EFTSL through a standard fast-track delivery so that full-time students normally complete the course in 2 years. In this case, the Course of Study Load (E350) would be “3” but the Standard Course Duration would be “2”.

The Standard Course Duration must not be greater than the Course of Study Load, once converted to full-time years. For example, if the Course of Study Load is 3 EFTSL, then the Standard Course Duration cannot be greater than “3”.

The Standard Course Duration is to reflect the standard or normal course delivery. It is not affected by situations where individual students:

- Voluntarily study at less than a standard full-time load.
- Voluntarily fast-track their study by undertaking more than the standard full-time load for a year.
- Voluntarily or accidentally take more than the standard load.
- Fail units of study that need to be retaken or substituted.

Report ‘0’ for Non-award, cross Provider program, unit of study undertaken through Open Universities Australia or course is only available on a part-time basis.

</tr>
<tr>
<td>6</td>
<td>Transfer to complete a related course</td>
</tr>
<tr>
<td>7</td>
<td>Transfer to continue a related course</td>
</tr>
</tbody>
</table>

**ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS**

A student’s course outcome is to be coded as “completed” when the Provider has determined that the student has met all the requirements of the course in which the student is currently enrolled.

A student’s course outcome is to be coded as “withdrawn” where the student has formally notified the provider that they are withdrawing from the course before completing it, either to discontinue study or to transfer to another course discontinuing study in the course and they are not transferring to, or completing, a related course with the provider.

A student’s course outcome is to be coded as “enrolment cancelled” where the Provider has withdrawn the student from the course due to the student’s lack of progress or other academic or disciplinary reasons.

A student’s course outcome is to be coded as “approved leave” where the Provider has approved a leave of absence for the student after the student has commenced the course.

Do not report a course outcome code where the student remains enrolled in the course, unless one of the allowable categories applies to the student and the student has not formally deferred. This includes students who remain enrolled but are inactive.

**VET**
The codes ‘5’, ‘6’ and ‘7’ are not applicable to this collection.

**Higher education**
A student’s course outcome is to be coded as “completed but continuing a related course” where the student has completed the requirements of the course but will be continuing in a related course for which they will receive full credit recognition for the first course. This includes nested awards where a completion is reported for a lower or component award but the student will continue study. For example, a student completing a nested Graduate Certificate who is continuing with a Graduate Diploma or a student who is awarded a single degree (e.g. BA) but is continuing their enrolment in a related combined degree (e.g. BA/LLB).
A student’s course outcome is to be coded as “transfer to complete a related course” where the student is not continuing study in the course or a related course with the provider but will be have a completion recorded (without further study) for the related course. This includes students receiving an exit award at the same or lower level.

A student’s course outcome is to be coded as “transfer to continue a related course” where the student is not continuing study in the course but is transferring to a related course that will require further study to meet the requirements of that second course. For example, a student who transfers from a combined degree to a related single degree but has yet to complete the single degree, or a student transferring from a bachelor pass to a bachelor honours degree but did not separately complete the pass degree.

For more information about terms used in these guidelines, see the Glossary.

<tr>
<th>Data Type*</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>810</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

**ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS**
The Unit of Study Commencement Date is the date that the Provider first expects students to engage in learning and assessment activities. In most cases, this would fall in the first week of the relevant study period, however there may be cases where this date falls outside of the first week.

For students who are expected to commence learning activities within two weeks of the start of the academic term or semester, Unit of Study Commencement Date is the first day of the academic term or semester in which the unit of study is delivered.

For students who are not expected to commence learning activities within the first two weeks of the start of the academic term or semester, the Unit of Study Commencement Date is the first day the Provider expects the student to commence learning activities. For example, for a Bachelor of Science, the units might normally commence in week 1, however Applied Physics 1.01 deviates from this, and actually starts in week 3. For Applied Physics 1.01, the Unit of study Commencement date would be the relevant day in week 3.

VET providers may report the ‘Activity start date’, as specified in the AVETMISS data element definitions with the format of YYYY-MM-DD.

For more information about terms used in these guidelines, see the Glossary.

<tr>
<th>FORMAT:</th>
<th>Data Type*: Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>10</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
For students who have not withdrawn from the Unit of Study, the Unit of Study Outcome Date is the date the Provider expects students to finish engaging in learning and assessment activities. In this instance, it is last day of the academic term or semester in which the unit of study is delivered including any relevant exam periods. For units of study that involve placements or practicums that conclude after the last day of the academic term or semester, then the Unit of Study Outcome Date is the day the student is expected to complete the placement or practicum.

For students who withdraw from the unit, the Unit of Study Outcome Date is to be updated to indicate the date that the student formally withdrew from the Unit of Study.

Providers are only required to report information that is known (i.e. where the student formally withdraws from a unit of study, as opposed to disengaging without notice).

VET providers may report the ‘Activity end date’, as specified in the AVETMISS data element definitions with the format of YYYY-MM-DD.

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
The Selection Rank (see glossary) is the student’s or applicant’s ATAR after adjustment factors have been applied to assess admission into a course.

Data must be reported for all domestic students and domestic applicants who are recent school leavers as defined in the glossary. Data should also be reported for other students and applicants if the Provider has this information.

Where no adjustment factors are applied to the student’s or applicant’s ATAR, the Selection Rank is to match the ATAR.

For students who completed high school in Queensland before Queensland adopted the ATAR, the Selection Rank is to be reported based on the ATAR equivalent.

<tr>
<td>true</td>
<td>Unit of study is a full year unit of study</td>
<td></td>
</tr>
<tr>
<td>false</td>
<td>Unit of study is NOT a full year unit of study</td>
<td></td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

A unit of study is a full year unit if the duration of the unit is longer than a standard semester or trimester. The duration of the unit will generally be a full academic year or longer (e.g. two semesters or three trimesters in length equalling a period of one academic year or more).

To be classified as a year long unit, the unit must be a single unit that has a single outcome upon completion of the unit at the end of the academic year (completed, failed, withdrawn). This can include units, which are completed across two academic years, for example, by starting the unit at the start of second semester and completing it at the end of the first semester in the following year. If the unit is repeated by the student, the student will be required to undertake the unit again in its entirety over a whole academic year or more.

Combinations of units that combine to form a body of study that is undertaken over the course of an academic year are NOT considered to be year long units. This includes:

- Self-paced units of study where students can choose how long they take to complete. For example, online units of study that do not require the student to take a full academic year or more to complete.
- Units of study that are not delivered over a full academic year. For example, two out of three trimesters, three out of four terms.
- Units that have either mandatory or optional pre-requisite unit(s) that must be completed before the current unit can be undertaken.
- Streamed - A cluster, stream or combination of related units of study, or other related units that combine to form a cohesive body of study (which are delivered over an academic year). For example, 'part A' & 'part B' units of study.
- Units of study where the student can have more than one outcome. For example, if the student is required to repeat the unit, repeat a part or portion of the full academic year, it would not be considered a full year unit depending on how far they progressed through the unit and how many ‘parts’ of the unit they successfully completed, they may not be required to undertake the full unit again in its entirety.

</table>

*Data type definitions and formats are detailed in the glossary

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
RTP Stipend is as defined in the Commonwealth Scholarships Guidelines (Research) 2017.

The RTP Stipend amount is the total amount awarded and to be paid (including indexation if applicable) to the student for the full reporting year. This is the amount offered to the student and may not equate to the amount paid to the student, for example, if the student completed their studies prior to the end of the full year or if the student’s RTP Stipend scholarship was suspended for a period during the year.

Only one RTP Stipend amount is to be reported per student per year.

This amount must not include any RTP fee offset the student may receive.

</thead>
<tbody>
<tr>
<td>0</td>
<td>ATAR is not available</td>
</tr>
<tr>
<td>30.00   to 99.95</td>
<td>ATAR</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

The ATAR is a ranking from 30 (lowest) up to 99.95 (highest) agreed by COAG as a nationally equivalent measure of a person’s relative academic ranking within their complete age cohort in the year they graduated from senior secondary school. The ATAR reported on this element is to be the ‘raw ATAR’ and is not to include any adjustment factors, such as bonus points.

Data must be reported for all domestic students and domestic applicants who are recent school leavers as defined in the glossary. Data should also be reported for other students and applicants if the Provider has this information.

For students who completed high school in Queensland before Queensland adopted the ATAR, the “Overall Position” (OP) values are to be reported at the ATAR equivalent.

Those values are to be reported in full, without rounding.

For more information about terms used in these guidelines, see the Glossary.

</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

HEPs / TACs - data is discretionary in all submissions except for the University of Tasmania which requires this data in all submissions.

For TACs, refer to TAC Data Elements Map for more information.

Current year means the year in which the most recent Australian State and Territory school-leaver cohort completed Year 12 i.e. the year immediately prior to the reference year for the detailed collections

For the preliminary collection (TACs only), this element should reflect the Year 12 qualification being attempted

Only one qualification is to be reported in cases where an application is made by an individual with more than one current Australian Year 12 qualification.

The following qualifications are coded as ‘09’: Victorian Certificate of Applied Learning, Accelerated Christian Education and Rudolf Steiner/Waldorf Education

QCE (‘03’) may also be used for the Queensland Senior Certificate by internal examination but the Queensland Senior Certificate by external examination is excluded

International Baccalaureate qualifications are coded ‘08’ for all students who are confirmed by the Australian Office of the International Baccalaureate Organisation (regardless of whether the qualification was achieved at an onshore Australian school)
For more information about terms used in these guidelines, see the Glossary.

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

For the purpose of the Application and Offers collection, the intake year is the year the course commences which may differ to the year the student first starts studying in that course. Report in YYYY format.

Required when reporting Course Preferences and Course Offers.

For TACs, refer to TAC Data Elements Map for more information.

Where the full details of the intake year cannot be provided, the default is the current reference year.

For more information about terms used in these guidelines, see the Glossary.

</tr>
<tr>
<td>99</td>
<td>Applicant qualified for an International Baccalaureate aggregate score in the current year but the value is unknown or cannot be reported</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS
International Baccalaureate qualifications are reported for students whose confirmed candidature has been notified by the Australian Office of the International Baccalaureate Organisation.

Current year means the year in which the most recent Australian State and territory school-leaver cohorts completed Year 12.

If the submitter is a TAC, report bb where the applicant has not qualified for an International Baccalaureate aggregate score. Refer to TAC Data Elements Map for more information.

If the submitter is a Higher Education Provider, this field may be left blank if no details on the International Baccalaureate aggregate score are collected.

<td>0</td>
<td>The applicant has not qualified for an Interstate Transfer Index or the applicant’s score is unknown</td>
</tr>
<tr>
<td>30 to 99.95</td>
<td>Selection Rank</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

The Interstate Transfer Index is the value for the common index that has been agreed by MCEETYA.

Round the hundredths in the value to either ‘0’ or ‘5’. For example:
- ‘89.94’ should be reported as ‘89.95’
- ‘91.11’ should be reported as ‘91.10’

Current year means the year in which the most recent Australian State and territory school-leaver cohorts completed Year 12.

Note: Element 711 is not reported by Higher Education Providers. Element 369 (Tertiary Entrance Score) or Element 710 (International Baccalaureate aggregate score) are reported instead.

E713: Preference ordinal position

DESCRIPTION
The ordinal position of a preference in the set of preferences of an applicant as at the Reference date

<table>
<thead>
<tr>
<th>FORMAT:</th>
<th>Data Type*: String</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width:</td>
<td>2</td>

</thead>
<tbody>
<tr>
<td>00</td>
<td>Provider does not require applicants to express a preference order</td>
</tr>
<tr>
<td>01 to 98</td>
<td>Actual or notional ordinal position assigned to a preference</td>
</tr>
<tr>
<td>99</td>
<td>May be reported for course offers if the offered course is not a current preference and such data is captured</td>
</tr>
</tbody>
</table>

ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

Higher Education Providers
- Providers report ‘00’ or a notional Preference ordinal position if applicants are not required to express a preference order
- Element 713 (Preference ordinal position) must be different in each Course Preference linked to a single Element 700 (Application identification code) for the reference year (unless 00 is reported).
- If only one preference is submitted against a unique value for Element 700 (Application identification code) then the Preference ordinal position of ‘01’ should be assigned

If the submitter is a TAC:
Provision of full details of the Preference ordinal position is required for all Preference Details and Offer Details data records.

- Element 713 (Preference ordinal position) must be different in each Course Preference linked to a single Element 700 (Application identification code) for the reference year.
- Element 713 (Preference ordinal position) must be different in each Course Offer linked to a single Element 700 (Application identification code) which has the same Element 705 (Date offered) for the reference year. This rule does not apply to the reporting of ‘99’.

For TACs, refer to TAC Data Elements Map for more information.

For more information about terms used in these guidelines, see the Glossary.

<tr>
<th>Data Type*</th>
<th>String</th>
</tr>
</thead>
<tbody>
<tr>
<td>Width</td>
<td>1</td>
</tr>
</tbody>
</table>

*Data type definitions and formats are detailed in the glossary

</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Accepted the offer</td>
</tr>
<tr>
<td>2</td>
<td>Rejected the offer</td>
</tr>
<tr>
<td>3</td>
<td>Deferred the offer</td>
</tr>
<tr>
<td>4</td>
<td>Offer deemed to have lapsed</td>
</tr>
<tr>
<td>5</td>
<td>Offer superseded by later offer</td>
</tr>
<tr>
<td>6</td>
<td>Response unknown, not yet recorded, or not required</td>
</tr>
</tbody>
</table>

### ADDITIONAL INFORMATION TO SUPPORT REPORTING REQUIREMENTS

**HEPs / TACs** - Provision of data is discretionary in both submissions.

For TACs, refer to [TAC Data Elements Map](#) for more information.

A response to an offer can be an explicit response from the applicant or applicant’s agent or inferred by the institution from the applicant’s failure to respond by the lapse date (coded as ‘4’) or from the applicant’s enrolment in an institution course corresponding to the course (coded as ‘1’).

If ‘6’ is recorded, change to ‘1’ at such time as the applicant enrols.

A failure to enrol does not supersede an acceptance of the offer.

The most recent response is reported where an applicant explicitly changes his/her response to an offer.

Concurrent acceptance of multiple offers is not invalid.

For more information about terms used in these guidelines, see the Glossary.

Glossary of data types

The format for each data type aligns with international standards for information and communication systems. There are five data types in the collections.

**BOOLEAN**
Elements with a “Boolean” data type represent a true or a false statement.
Enter Boolean type elements as either “true” or “false”. There are no leading or trailing spaces and no capitalisation.

**DATE**
Elements with a “Date” data type represent a date.
All date data are in the format “YYYY-MM-DD”
Dates can only include numbers for year, month and day values with a hyphen between each.

YYYY-MM-DD format:
- 1st 4 digits - Year sub-field (e.g. 1957)
- 5th digit - hyphen
- 6th and 7th digits - Month sub-field (e.g. 08)
- 8th digit - hyphen
- 9th and 10th digit - Day sub-field (e.g. 06)

**DECIMAL**
Elements with a “Decimal” data type represent a decimal value, with a specific criteria on the maximum number of digits after the decimal point.
The width is shown with two numbers in the form “N(n)” which indicates the maximum number of digits (N), and the number of digits permitted after the decimal place (n). The decimal place is not counted in the field width.

Examples for width 7(2):
- 12867.2
- 0.15
- 0.0

Only numbers and a decimal place can be reported for this data type.
There are no leading zeros. Trailing zeros are not required.

**INTEGER**
Elements with an “Integer” data type represent an integer, i.e. a whole number without decimals.
Only numbers can be reported for this data type. There must be no leading zeros.

Examples:
- 207
- 102392382
- 0

**STRING**
Elements with a “String” data type represent text formed from a sequence of characters.
Characters can include letters (a-z, A-Z), numbers (0-9), and special characters: (space) & ' ( ) , . / [ ] _ : (i.e. space, ampersand, apostrophe, open parenthesis, closed parenthesis, comma, hyphen, full stop, forward slash, open square bracket, close square bracket, underscore, colon).

Example:
- Unit 35/A, 77 Oxenbridge Avenue
